## About Me

---

I'm a designer and Illustrator who regularly joins art competitions and hosts collaborations with other artists. I've done several commissions for private entities for character and concept designs, as well as logos. Over the span of 5 years I ran the schools art club and had sessions teaching my peers how to use the Adobe Suite and Procreate. I enjoy trying new things, especially in the field of design.

## Professional Experience

---

### Officeworks
